TS - % of heat transmitted.

RS - % of heat reflected.

AS - % of heat absorbed.

TV - % of light transmitted.

RV - % of light reflected.

AV - % of light absorbed.

Shading Co-efficient (SC) – The solar heat gain with the blind at the window divided by the solar heat gain with no blind at the window. The lower the SC, the higher the efficiency of the slat.

UV Block - % of ultraviolet transmittance blocked.

Sun Block - % of sun light blocked.

## Cleaning and Maintenance

Durashade™ PVC Vertical Blinds are low maintenance and can be wiped clean with a mild detergent.

We recommend that regular visual checks are completed to ensure that no components have been damaged which could result in operating difficulties and/or cause a safety risk.
